

SUDARSHAN MASKE

Software Engineer

✉ ms22maske@gmail.com | 📞 +91 8856810019 | 🔗 LinkedIn | 🌐 GitHub | 📍 Pune, Maharashtra

Summary

Software Engineer with experience contributing to web application development in Agile environments. Adept at collaborating with teams, adapting to new challenges, and delivering high-quality solutions with a focus on performance and user experience.

Skills

Programming Languages: C++, Python, JavaScript (ES6+), SQL

Frontend Development: React.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3, Responsive Web Design

Backend Development: Node.js, Express.js, FastAPI, RESTful API Design, JWT Authentication

Databases & ORM: MongoDB, PostgreSQL, MySQL

Tools & Methodologies: Git, GitHub, CI/CD, Postman, VS Code, Agile/Scrum

Core Skills: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating System, DBMS, Computer Networks,

Experience

Software Developer Intern

Jun 2025 – Nov 2025

Pratyin Infotech Consultants Pvt. Ltd., Pune

- Engineered real-time, responsive web applications in a collaborative Agile team using React.js, Tailwind CSS, and JavaScript (ES6+), contributing to multiple sprint deliverables.
- Developed and optimized 15+ reusable React components using component-based architecture, improving page load performance by approximately 25% and significantly reducing code duplication.
- Implemented secure protected routes, Formik + Yup form validation, and RESTful API integration via Axios, ensuring reliable data handling and improved input accuracy.
- Triaged and resolved 20+ UI defects across sprint cycles and enhanced cross-device mobile responsiveness for multiple dashboards, improving overall application quality.

Projects

Movie Ticket Booking Platform | *React.js, Node.js, Express.js, MongoDB, Clerk, Stripe, Brevo* | GitHub

Jan 2026

- Architected and built a full-stack, production-ready movie ticket booking application with interactive seat selection, real-time booking confirmation, and role-based access control for Admin and User roles.
- Integrated Stripe payment gateway for secure online transactions and configured Brevo email service for automated booking confirmation notifications.
- Designed and implemented secure RESTful APIs with JWT authentication and Clerk-based user management, enabling scalable and protected backend operations.
- Engineered a fully responsive UI with React.js and Tailwind CSS, delivering a seamless cross-device user experience.

Doctor's Appointment Booking System | *React.js, Node.js, Tailwind CSS, Formik, Yup, Axios, REST APIs* | GitHub

2025

- Developed a multi-role web application supporting distinct Patient, Doctor, and Administrator workflows, each with dedicated dashboards and access privileges.
- Implemented robust client-side validation using Formik and Yup, reducing form submission errors by 40% and improving end-user data input quality.
- Optimized API communication by building reusable Axios interceptor-based service layers, minimizing redundant network requests and standardizing error handling.

Problem Solving & Competitive Programming

- **LeetCode:** Solved **295+** DSA problems across arrays, trees, graphs, DP, greedy, and string algorithms. (Profile)

Education

Bachelor of Engineering – Electronics and Telecommunication

2022 – 2026

Dr. D. Y. Patil Institute of Technology, Pimpri, Pune

CGPA: 8.76 / 10
